Pool Safety Tips

- Learn to swim.
- **NEVER** swim alone.
- **NEVER** swim under the influence of alcohol or medications.
- **NEVER** swim when you hear thunder or see lightning.
- **NEVER** dive into an unfamiliar body of water.
- **Always** designate a water watcher.
- **Eliminate** all distractions near bodies of water.

Scan QR code for a list of city pools that offer swim classes.

Remember, just a few seconds is all it takes for a child to drown. Keep water play safe and fun.

WATER SAFETY

Phoenix.Gov/fire

Our Mission

Too often, firefighters hear people say **"I only turned my back for a few seconds."** Sadly, just a few seconds is all it takes for a child to drown.

Most children drown in canals, buckets, toilets, bathtubs and ponds.

Near-drownings can cause permanent brain damage.

Drowning an near-drowning can be prevented! Anyone involved with young children needs to be aware of this tragedy.

For more information on how to prevent drownings, scan the QR code.

Pool Fence Program

Together with collaborative efforts, Child Crisis Arizona introduced the Pool Fence Safety Program designed to provide those in need of a pool fence with the opportunity to apply for a free one.

Scan this QR code to apply for the Pool Fence Program.

Prevent Drownings

- Use an approved barrier to separate the pool from the house.
- NEVER allow children to be alone near a pool or any water source.
- ALWAYS have a designated child watcher.
- Have life-saving devices near the pool, such as a hook, pole, or flotation device.
- Keep large objects such as tables, chairs, or ladders away from pool fences.
